Greece

GR myDATA e-invoicing

The regime

In the clearance model the invoice goes to the tax authority first, is approved, then reaches the buyer.

Greece channels issuing through authorised providers and transmits the data to myDATA.

In Greece electronic invoicing became mandatory on 2 March 2026 for businesses with 2023 revenue above one million euro and on 2 November 2026 for all remaining businesses; documents are issued through an authorised provider or the authority's own applications and sent to myDATA.

The European Union's "VAT in the Digital Age" (ViDA) package cleared the way for member states to impose their own e-invoicing mandates and set a common digital reporting timeline for cross-border transactions.

What it means in day-to-day operation

- The provider route is chosen first; the format follows from it.
- The mark returned by myDATA is what makes a document complete.
- Received documents are matched against the records already in the system.

On the SAP side

No more native ABAP add-ons that slow the system and complicate upgrades. TecT runs outside your SAP system, keeps your core clean and talks to every release from SAP R/3 to SAP Public Cloud.

The document is produced in SAP, country rules are applied in the integration layer, and the result is written back to SAP.

SAP Public Cloud Future · fully isolated cloud architecture

SAP S/4HANA Modern · high-performance, agile

SAP R/3 Legacy · stable and secure data extraction

What TecT covers

- e-Invoice, e-Archive, e-Waybill and e-Ledger in one hub
- Rule-based automation with AI-assisted matching suggestions
- Bank statements (EHÖ) and Online Direct Debit (DBS) inside SAP
- Mobile cockpit and AI assistant with TecT App

TecT Standart	Core e-transformation hub	e-Invoice · e-Archive · e-Waybill · e-Ledger
TecT Plus	Financial excellence and automation	Bank statements (EHÖ) · 21 banks · Online Direct Debit (DBS) · 20 banks · Bulk payments · F110 · e-Reconciliation
TecT App	Mobile cockpit and AI assistant	Cockpit · Assistant · Cash and bank tracking · Document flows
