Spain

ES **VERI*FACTU**

The regime

In the real-time reporting model the invoice flows between the parties and is reported to the authority at the same time.

Spain puts the rules on the invoicing software itself: each record is verifiable and carries a QR code.

In Spain invoicing software must produce every invoice as an unalterable record, print a QR code on the document and either send the records to the tax agency continuously or keep them locally. TecT records and transmits invoices created in SAP under those rules.

The European Union's "VAT in the Digital Age" (ViDA) package cleared the way for member states to impose their own e-invoicing mandates and set a common digital reporting timeline for cross-border transactions.

What it means in day-to-day operation

- The record, not just the invoice, is what has to be correct and unalterable.
- The chosen mode decides whether records are transmitted or kept in the system.
- Verification by the buyer is part of the design, so the QR code belongs on every document.

On the SAP side

No more native ABAP add-ons that slow the system and complicate upgrades. TecT runs outside your SAP system, keeps your core clean and talks to every release from SAP R/3 to SAP Public Cloud.

The document is produced in SAP, country rules are applied in the integration layer, and the result is written back to SAP.

SAP Public Cloud Future · fully isolated cloud architecture

SAP S/4HANA Modern · high-performance, agile

SAP R/3 Legacy · stable and secure data extraction

What TecT covers

- e-Invoice, e-Archive, e-Waybill and e-Ledger in one hub
- Rule-based automation with AI-assisted matching suggestions
- Bank statements (EHÖ) and Online Direct Debit (DBS) inside SAP
- Mobile cockpit and AI assistant with TecT App

TecT Standart	Core e-transformation hub	e-Invoice · e-Archive · e-Waybill · e-Ledger
TecT Plus	Financial excellence and automation	Bank statements (EHÖ) · 21 banks · Online Direct Debit (DBS) · 20 banks · Bulk payments · F110 · e-Reconciliation
TecT App	Mobile cockpit and AI assistant	Cockpit · Assistant · Cash and bank tracking · Document flows
