Saudi Arabia

SA **ZATCA e-invoicing (FATOORA)**

The regime

In the clearance model the invoice goes to the tax authority first, is approved, then reaches the buyer.

Saudi Arabia pairs a generation phase with integration into the authority's platform, group by group.

In Saudi Arabia e-invoicing runs in two phases: the generation phase started on 4 December 2021 and the integration phase with the authority's systems on 1 January 2023, rolling out in waves by taxpayer group. TecT connects the invoice created in SAP to that structure.

What it means in day-to-day operation

- Generation rules apply to every taxpayer; integration arrives by wave.
- The QR code and the cryptographic stamp are part of the document, not an afterthought.
- Standard and simplified invoices follow different routes through the platform.

On the SAP side

No more native ABAP add-ons that slow the system and complicate upgrades. TecT runs outside your SAP system, keeps your core clean and talks to every release from SAP R/3 to SAP Public Cloud.

The document is produced in SAP, country rules are applied in the integration layer, and the result is written back to SAP.

SAP Public Cloud Future · fully isolated cloud architecture

SAP S/4HANA Modern · high-performance, agile

SAP R/3 Legacy · stable and secure data extraction

What TecT covers

- e-Invoice, e-Archive, e-Waybill and e-Ledger in one hub
- Rule-based automation with AI-assisted matching suggestions
- Bank statements (EHÖ) and Online Direct Debit (DBS) inside SAP
- Mobile cockpit and AI assistant with TecT App

TecT Standart	Core e-transformation hub	e-Invoice · e-Archive · e-Waybill · e-Ledger
TecT Plus	Financial excellence and automation	Bank statements (EHÖ) · 21 banks · Online Direct Debit (DBS) · 20 banks · Bulk payments · F110 · e-Reconciliation
TecT App	Mobile cockpit and AI assistant	Cockpit · Assistant · Cash and bank tracking · Document flows
