Czechia

CZ **E-invoicing via Peppol**

The regime

In the decentralized model the document standard and network are mandatory while the authority observes.

Czechia builds on the European standard; ISDOC remains the widely used national format.

In Czechia a contracting authority may not reject an e-invoice that follows the European standard merely because of its format; the common formats are ISDOC and UBL 2.1, and exchange mostly runs over the Peppol network. TecT converts the SAP document and sends it on.

The European Union's "VAT in the Digital Age" (ViDA) package cleared the way for member states to impose their own e-invoicing mandates and set a common digital reporting timeline for cross-border transactions.

What it means in day-to-day operation

- A document in the European standard cannot be refused for its format alone.
- The format follows what the recipient accepts, which keeps two output paths open.
- Exchange runs over the network, with delivery notices tracked per document.

On the SAP side

No more native ABAP add-ons that slow the system and complicate upgrades. TecT runs outside your SAP system, keeps your core clean and talks to every release from SAP R/3 to SAP Public Cloud.

The document is produced in SAP, country rules are applied in the integration layer, and the result is written back to SAP.

SAP Public Cloud Future · fully isolated cloud architecture

SAP S/4HANA Modern · high-performance, agile

SAP R/3 Legacy · stable and secure data extraction

What TecT covers

- e-Invoice, e-Archive, e-Waybill and e-Ledger in one hub
- Rule-based automation with AI-assisted matching suggestions
- Bank statements (EHÖ) and Online Direct Debit (DBS) inside SAP
- Mobile cockpit and AI assistant with TecT App

TecT Standart	Core e-transformation hub	e-Invoice · e-Archive · e-Waybill · e-Ledger
TecT Plus	Financial excellence and automation	Bank statements (EHÖ) · 21 banks · Online Direct Debit (DBS) · 20 banks · Bulk payments · F110 · e-Reconciliation
TecT App	Mobile cockpit and AI assistant	Cockpit · Assistant · Cash and bank tracking · Document flows
